

LH1 Series

Hanging Barcode Label Scale

Patented product · Unauthorized usage prohibited
Membrane Key Patent No.: ZL 01 2 03361.8
Rock-relief Universal Joint Patent No.: ZL 02 2 63677.3

Unique Functions

- ✦ Patented Rock-relief universal joint (oil pressure), which makes it possible to rapidly stop the swing.
- ✦ Patented adjustable nip joint for adjusting the height freely.
- ✦ Originally-developed innovative removable hot keypad (84*2 hot keys), which is workable even it is soaked. The layout of hot keypad can be easily edited by the software and be printed immediately so that the cashier can operate the ECR by pressing some single key instead of memorizing and enter annoying numbers. Mistakes rarely happen then.
- ✦ Capable of printing batch serial no. (patented, originally-developed in the world) and doing batch management for stock or fresh status.
- ✦ With Ethernet network, the scale is able to ask for data from PC.
- ✦ Each PLU is allowed to have an independent code format (for instance: EAN13 code with weight, price or EAN18 code). 10,000 PLU are available.
- ✦ Originally-developed label barcode scale in the world based on POS network management. With the PLU management software, network management software, label edit software and 18 barcodes function, the perishable foods can be merged into the sale, purchase & inventory management system, so as to solve "supermarket black hole" problem.
- ✦ The first label scale with logo edit software, which can adjust the label size (30*30mm~55*60mm) to reduce the label paper cost (15~50%).
