

## SYSTEM FEATURES

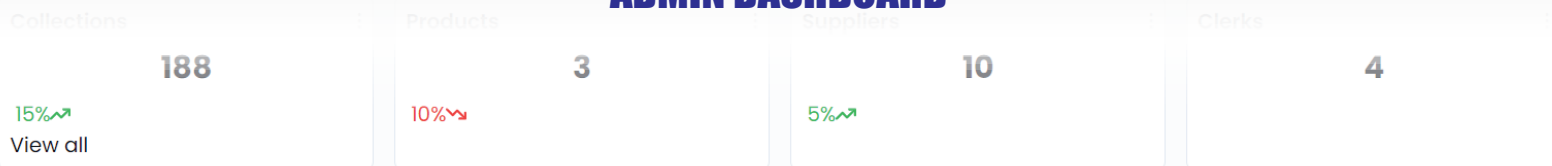

### Admin:

- ✓ Features a user-friendly landing page that introduces the system and its functionalities.
- ✓ Offers an interactive and visually appealing dashboard for efficient management of:
  - Clerks
  - Suppliers
  - Products
  - Locations
- ✓ Provides comprehensive metrics of collections through visually analyzed graphs and charts.
- ✓ Enables real-time monitoring of all collections, including timestamps for when records were saved.
- ✓ Empowers administrators to generate detailed reports on paid collections, amounts paid to suppliers, and pending balances for thorough financial management.

### Field Collection Agents (Clerks):

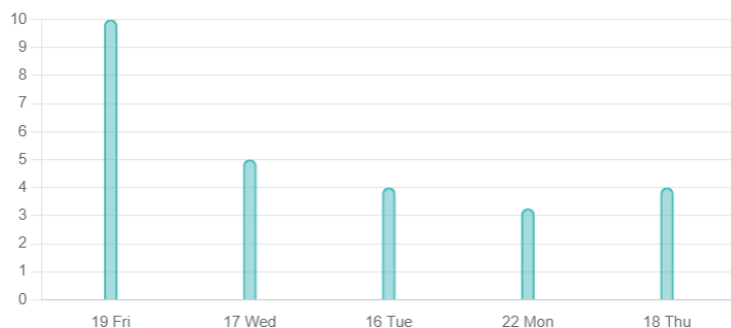

- ✓ Log in to individual accounts securely.
- ✓ Connect app to Bluetooth scale and printer for seamless operations.
- ✓ Select the product they are collecting from a list.
- ✓ Choose the location of collection from predefined options.
- ✓ Select the supplier from a list of available options.
- ✓ Capture weight readings directly from the connected scale.
- ✓ Make advance payments to suppliers using cash or barter trade.
- ✓ Save records securely to our cloud database.
