removable and renewable hot keypad (Patent)

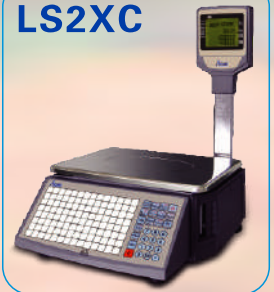

with insect-proof loop design (patent)

LS2XR

LS2XC

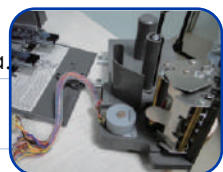

LS2NX

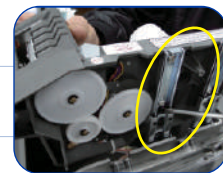

customer display (back of no-display-pole scale)

Unique Functions

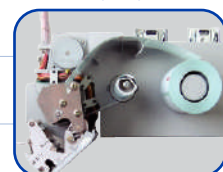

- ✓ **Capacity:** 30kg x 5g
- ✓ **Web65 Cloud Management Software**
Manage your scales remotely through the internet, including PLU items, product information and branch data.
- ✓ **Insect-Proof Design**
Special sealed design helps protect the scale from insects and reduces the risk of internal damage.
- ✓ **Easy-to-Use Hot Keypad**
Removable and replaceable hot keypad for quick access to frequently used products.
- ✓ **Customizable Hot Keys**
Product names, codes and other information can be edited on a computer and printed when needed.
- ✓ **Flexible Label Printing**
Supports different label formats and allows label settings to be adjusted to suit your requirements.
- ✓ **Replaceable Printer Module**
Modular printer design makes replacement and maintenance easier.
- ✓ **Easy PLU Selection**
PLU barcode formats and pricing units can be selected directly from the scale.
- ✓ **Fresh Food Labeling**
Supports barcode printing for fresh products and helps manage product information and pricing.
- ✓ **Network Management**
Supports network connection for managing scale information from a computer.
- ✓ **Adjustable Label Design**
Label size and layout can be adjusted using the label editing software.

Printer Module

Pull out path (P-2)

Vertical label printing (P-3)
